Free Android, iPhone, iPad & remote monitoring software supplied with DVR!

The AlienMax HD is the ultimate DVR for high end retail and domestic installs. It offers all the features you would expect to find in an Alien DVR and records stunning 1080p images at 25fps, something no other DVR on the market can boast.

1080p	25 FPS	HD-SDI INPUTS	Free DNS	Auto	WEB	PHONE CONNECT	Device Control	Network Back-Up	FAST SEARCH
1080p Recording at 25fps	HD-SDI BNC Inputs	Free DNS	Auto Port forwarding	Remote Monitoring	Live Images On Mobile	Device Control	Network Back-Up	Instant Detective	
Remote Local Back-Up	Remote Data Store	HDD Management	Multi-Ch Playback	Email Notification	Electronic Mapping	PTZ Control	2 zone	HDMI	VoiceOFF Ready

BlueDisc Menu

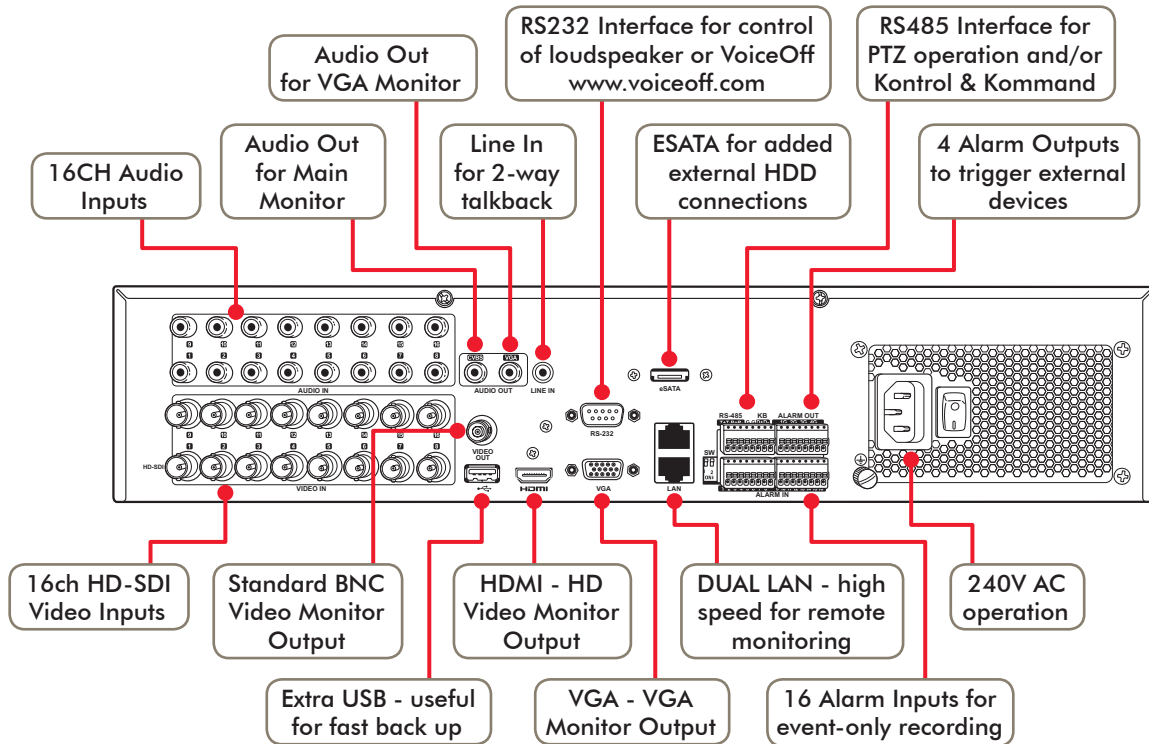

All alienMax HD units come with the ultra easy to use 'BlueDisc' menu. This simple interface allows most actions to be completed in just 3 clicks or less.

Instant Detective

Instant Detective allows the CCTV operator to select the area in the camera's image where an incident has happened. Instant Detective then searches for motion within a given time slot that occurred only in the depicted area. Any activity within that area of the camera's recorded image can quickly be accessed and saved for vital video evidence.

alienmaxHD

HD-SDI INPUTS

HD-SDI Video Inputs

HD-SDI stands for High Definition Serial Digital Interface, but most people call it by the abbreviation HD-SDI. In essence the main advantage over traditional analogue CCTV systems is HD-SDI sends video in a digital uncompressed format to deliver staggering picture quality.

DNS

Free DNS

The alienMax range comes with free DNS service making the Max HD even better value as it saves you time and money.

Auto

AutoPort Plug-and-Play for Fast Internet Setup

AutoPort removes all the hassle and complication from setting up port forwarding. AutoPort "Plug-and-Play" means the DVR can automatically configure compatible routers for you, making internet setup easier than ever before.

HDMI

HDMI, BNC & VGA Outputs - Use All 3 at Once

The alienMax's HDMI output provides a crystal clear, high definition image and works simultaneously with the standard BNC composites video outputs and the VGA output.

Multi Channel Playback

Multi Channel Playback

See what happened where and when using the DVR's multi-channel playback feature to view up to 16 cameras at once on the same screen! The alienMax even allows synchronised playback so it's easy to watch the build up to an event on multiple cameras at once.

Built-in Help Documents

Built-in Help Documents

Each alienMax features built-in help documents accessible at all times so you'll always have help on hand.

Specification
